March 5, 2020
10:30 to 11:30 a.m.
SE2 224

Cyber Security Hygiene and Data Research Requirements

This Listen and Learn session will address some key ways that you can minimize security risks around your research, including:

- What precautions to take when communicating about your research via email or web
- The security perspective on data research requirements & third-party requests
- Administrative, technical, and physical safeguards for sensitive data
- Overall challenges of information security
- Best practices and general cybersecurity hygiene
